

Geogebra Quick Start Guide

Installation

1. Go to www.geogebra.org/download
2. Under GeoGebra for Desktops, click on the Windows option
3. Your browser will download the latest GeoGebra-Windows.exe installer file (defaults to your Downloads folder)
4. Run the installer file from your download directory
5. Choose the language and Next
6. Click I Agree for the Terms and Conditions
7. Select Standard Install and then click the Install
8. The installer will run through the installation process
9. Click Finish and Geogebra will automatically launch.
10. Upon installation complete a Geogebra shortcut is placed on the desktop

Opening Files from Geogebra Tube

1. Go to File->Open from GeoGebraTube. A pop-up window will appear
2. In the search text bar, enter zSpace and click Search.
3. Mouse over 2D Cross-sections of Cylinder

4. Click on the pencil icon to launch the session
